Be innovative

We focus on the development of unique products and strive to find creative answers to questions posed by the healthcare industry

Be dedicated

A marked customer focus and compliance to international standards help us to uphold unsurpassed quality in products and services

Be responsible

We care for better health, our region and the environment. Every member of our team is motivated to make a vital contribution to the quality of life

Be effective

We strive for time- and cost efficient solutions to satisfy the versatile interests of our customers and patients worldwide

BeGraft

Improving your performance

The world's first peripheral Stent Graft System made of Cobalt-Chromium (CoCr) with an ePTFE covering of ~200 µm thickness that delivers a reliable solution for challenging arterial anatomies in complex endovascular procedures.

Building on Bentley's flagship device, the BeGraft is now indicated for the on-label use in FEVAR procedures.

Low profile – Less trauma

6 F compatibility up to Ø 8 x 57 mm

Dedicated ratio of flexibility and radial force

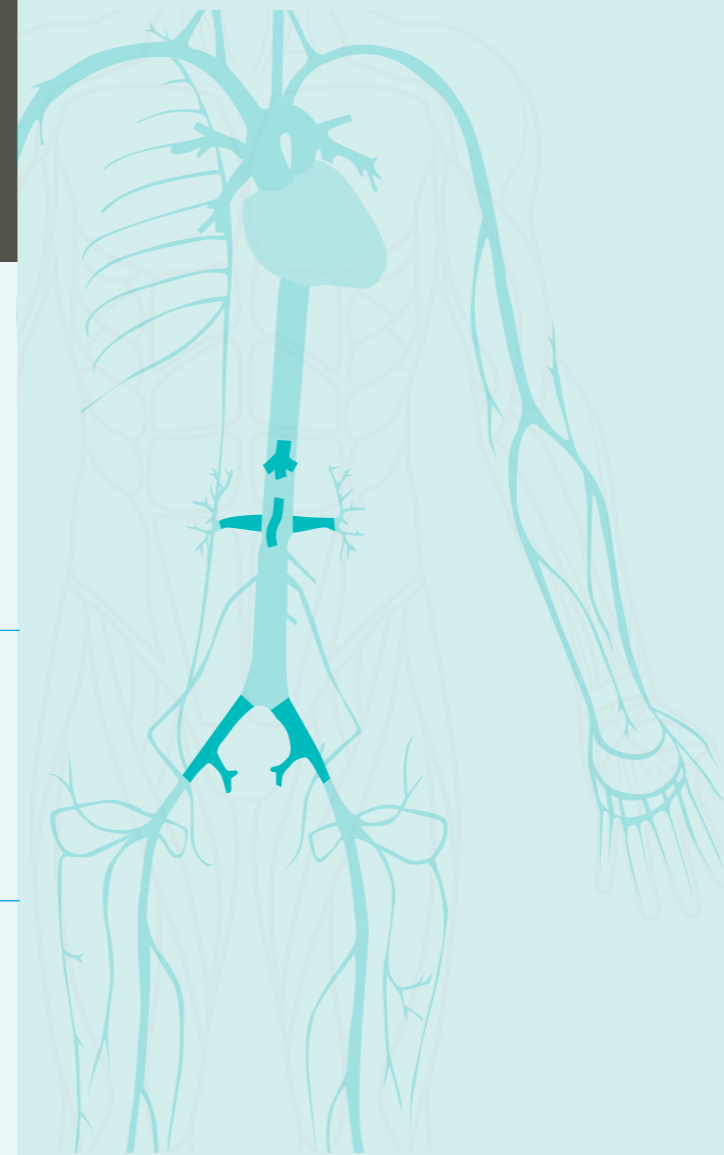

for reliable lesion care in complex cases

Broad coverage of indications¹

to meet a wider choice of patient requirements including Iliacs, Renals, and FEVAR

¹For full information, please see Instructions for Use

THE KNOWN ONE

Product specifications

Stent Material	CoCr (L-605)
Graft Material	One layer of micro-porous ePTFE tubing (203 ± 25µm)
Stent Graft Design	Single stent scaffold Open-cell design Patented ePTFE cover fixation
Delivery System	0.035" OTW
Catheter Shaft Length	75 and 120 cm
Expanded Stent Graft Diameter	Ø 5 and 6 mm ² Ø 7 and 8 mm ³ Ø 9 and 10 mm ⁴
Nominal Stent Graft Length	18, 22, 28, 38, 58 mm ² 18, 23, 27, 37, 57 mm ³ 27, 37, 57 mm ⁴
Introducer Sheath Compatibility	6 F up to Ø 8 x 57 mm 7 F for Ø 9 and 10 mm
Shelf Life	3 years

²SV= Small Vessel Design, ³MV= Medium Vessel Design, ⁴LV= Large Vessel Design, *not available in Ø 8 mm

Three different stent designs ensure ideal stent performance.

Indications

The BeGraft is indicated for permanent intraluminal placement in iliac and renal arteries for

- restoring and improving the patency impaired by arteriosclerosis or other stenoses that may be treated by stenting
- sealing aneurysms, acute perforations, acute ruptures and fistulas.

Furthermore, the BeGraft is indicated for use

- as a bridging stent graft in patients requiring endovascular abdominal aortic aneurysm repair with a fenestrated aortic endovascular graft to keep the visceral arteries perfused.

BeFlared

FEVAR

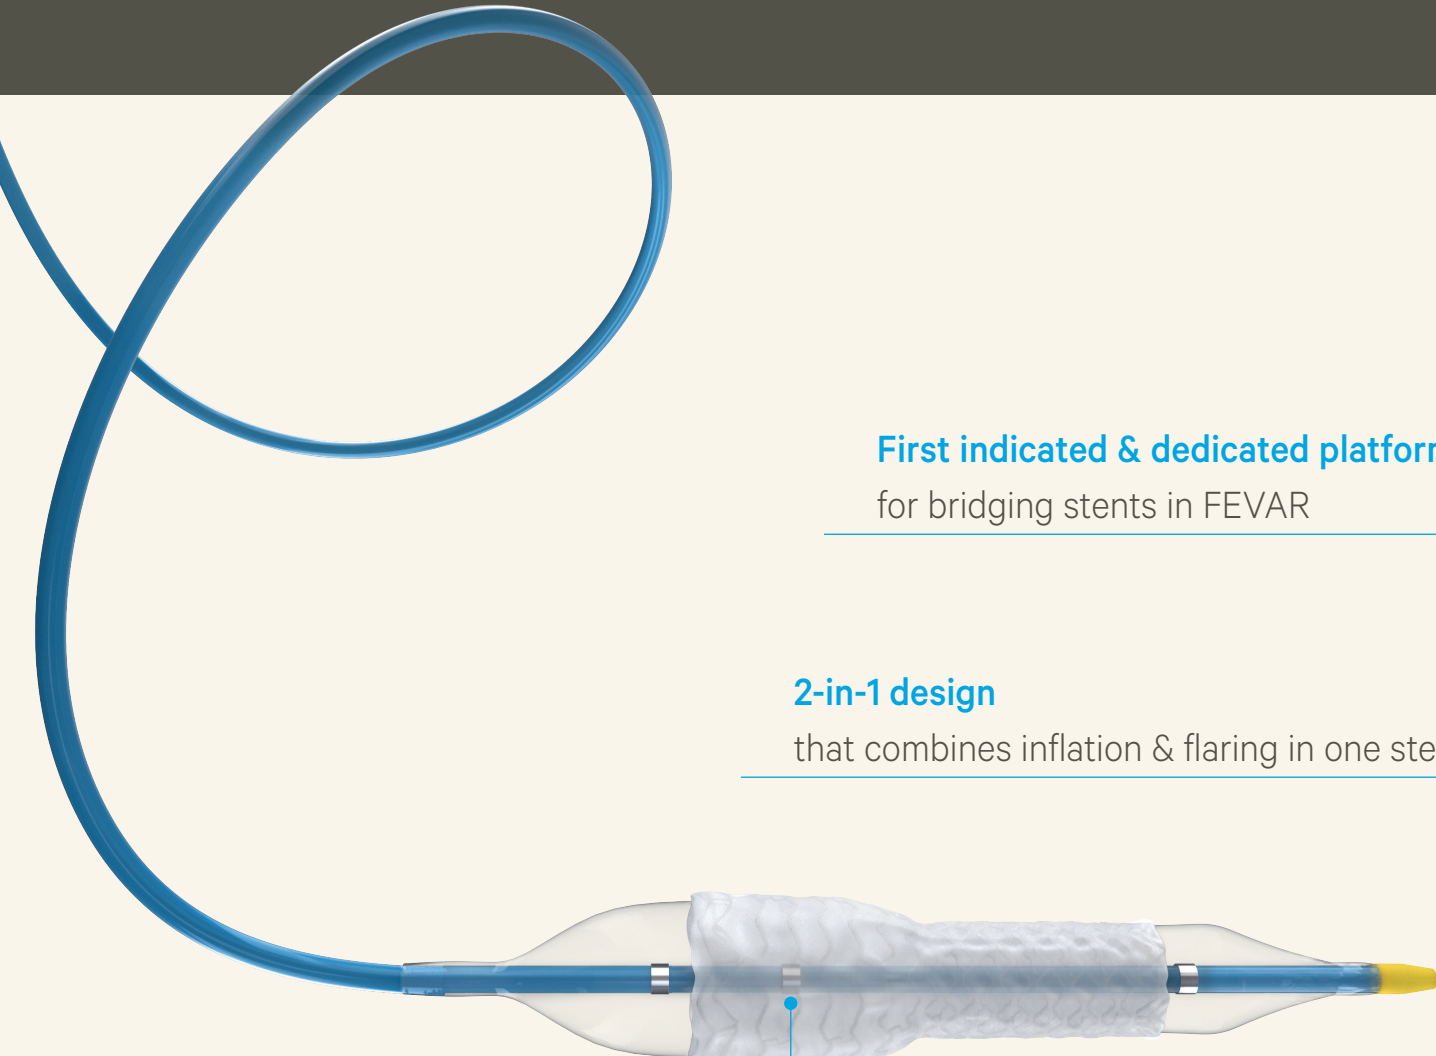

BeFlared

FEVAR

Elevating the standard in FEVAR procedures

Bentley continues its mission of making on-label solutions available for the treatment of patients. With the BeFlared FEVAR Stent Graft System Bentley wants to move even beyond by implementing innovative features dedicated to bridging stents in FEVAR procedures. As a 2-in-1 device BeFlared thrives to set a new standard in FEVAR.

First indicated & dedicated platform
for bridging stents in FEVAR

2-in-1 design

that combines inflation & flaring in one step

Precise & standardised positioning

due to a dedicated fenestration marker
